We are Solvex Cosmetic Products Ltd and we invite you to our magic world! Join us for a trip and learn more about who we are and what we do or just have some fun around!

At the beginning of the Company's history there was a team of long experienced in the branch and enthusiastic professionals, interested in science and cosmetic industry and determined to make a difference. In 1995 they founded the company "Solvex Cosmetic Products" Ltd in Plovdiv and marketed its first product - Hair Colour Series "Magic Woman". The Company was meant to operate in one particular area of competence - creation, production and trade with own cosmetic products. The following 12 years have witnessed the continuous enlargement of the Company, the increasing diversity of products and their growing success both at home and in over 40 countries world wide.

Our company has at its disposal own large production base (laboratory, industrial buildings and warehouses), all equipped with up-to-date technique. All Solvex products are created by our highly qualified scientific laboratory specialists in compliance with World Standards and Health Care Legislation in Bulgaria and are clinically and dermatologically tested in St. Georgy University Hospital.

The production process is under the chemical and microbiological laboratory's permanent oversight. Every stage of the technological process is supervised by special appliances for laboratory analyses and precise control.

Our Company's priority is the supreme quality of all products, which is reached by technological renovation, using first-rate raw materials and highly qualified professionals at every stage of production process.

Our collaboration with some of the world greatest laboratories, such as Sederma - France, Pentapharm - Switzerland, Mane - France, Jean Niel - France, Cognis - Germany, Symrise - Germany and many others, in creating our new product formulas, gives us an extra confidence that our products will be appreciated and will satisfy even customers with highest requirements and classic taste.

You see, we are old enough to possess the experience and wisdom to recognize the important and worthy goals, and at the same time, we are young enough to have the enthusiasm, courage and energy to achieve them. Our strong belief is that these efforts will result in better looking and happy feeling customers.
